

Braev Leonard I. **Truth and Science.**

The principles of necesete koleyne epistemology.

«Salika», - 2013, - 446 c. ISBN 978-5-906541-04-8

This book is a continuation of our research «Cognition and *fascination*», 2013. But here we are trying to understand not only why and how people are mistaken, but why and how they overcome their fallacy and get to know the truth – if they get.

Opens the relative absoluteness of truth and fallacy, refutation and evidence and clarifies that such a development of science.
